RUST PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metalic and other substances hitherto used for this purpose, possessing as they do the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate Iron, Zinc &c or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire &c, they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe,) constantly on hand from 16 to 30 wire gauge

DR. UPHAM'S

Vegetable Internal Remedy FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach Bowels, Kidney and Bladder Inflammatory and Mercurial Rheumatism Impurity of Blood Weakness and Inflammation of the Spine, and for the relief of Married Ladies

THE VEGETABLE PILE ELECTUARY invented by Dr A Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this, it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external and probably the only thing that will There is no mistake about it. It is a positive cure—*speedy and permanent* It is also a convenient medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses, at 8 1-3 cts per dose, It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger — All external applications are in the highest degree disagreeable, inconvenient and offensive; and from the very nature of the disease temporary in their effects. This Medicine attacks the disease at its source and REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT

INFLAMMATORY DISEASES

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others in all diseases of an inflammatory character, with a determination of blood to any particular part or organ. In inflammation and congestion of the Liver and Spleen, inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in inflammatory and mercurial Rheumatism, it is the *Best* that has ever been discovered

IMPURITIES OF THE BLOOD

For all impurities of the Blood arising from the imprudent use of Mercury or other causes, for all diseases of the Skin and Scrofulous Affections, in all cases where the blood is powerfully determined to the head producing dizziness and distress, DR UPHAM'S ELECTUARY is truly unrivalled

TO MARRIED LADIES

Married Ladies are almost invariably subject to that painful and dangerous disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head &c — The Electuary is perfectly safe for Pregnant Ladies and the most useful medicine that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION, but will ensure an easy time, a safe delivery, and a sound constitution in the offspring

CURE FOR LIFE GUARANTIED

The Electuary contains NO MINERAL Medicine no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative No fear of taking cold while under its influence, no change in diet necessary If taken according to the directions, A CURE FOR LIFE IS GUARANTIED

Pamphlets giving valuable information respecting this Medicine may be had of Agents, gratis

GREAT SUCCESS OF UPHAM'S

PILE ELECTUARY.

Portland Me, March 14, 1847

Dr UPHAM—My dear sir — I cannot express to you my sincere heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary I have been a perfect martyr to the Bleeding Piles for 10 years past so much so that I became reduced almost a skeleton, with loss of appetite, and general derangement of the digestive organs My eyes also became affected, and in fact I was a misery to myself I was obliged to give up my business I had tried all kinds of medicine, had the best advice the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine The first box failed to relieve the slightest, still I persevered, and purchased a second, and I assure you when I got half through, I found myself getting well still I kept on, and now I am a well man My dear Sir, language cannot express the heartfelt thanks that I am once more restored to health, and now in a condition to support my large family, dependent on me

You can use this letter as you please.

Mr. John Hale:

Dear Sir —It seems to be due to you and to myself, to lay before the public your confession to me in May or June 1847, in the town of Brewer in the presence of F I Parker and G O Goodwin, merchants, and one or two other persons in Mr Parker's store that you sold in the year 1844 to Silas Bunker of Corinth, Me a receipt or knowledge of the mode of manufacturing Dr White's Plaster, also that you sold or conveyed a like receipt to Elder Pratt at Swanville Bridge and to Robert Spinney, Esq , P M at Boothbay and to Mr —— Tolman a merchant at Ingraham's corner, Camden Since you made said conveyances of the knowledge of making said Plaster, and after you knew that I had such receipt and right to make and sell you have traveled much in a sino and have stated to those persons who were supplied with said Dr White's Plaster, not made by yourself, that it was a counterfeit article and that you were the only person who had a receipt or right to manufacture Doctor White's Plaster

Your confession, which I have in writing with your own signature, and witnessed together with what you have repeatedly stated about the counterfeit and which can be proved by the testimony of the following named persons, involve you in the mazes of fraud and deception such as few men would be willing to resort to These are the witnesses referred to

The Loco Press Shouting before they are out of the Woods.

The loco press throughout the country have been shouting over the prosperous business of the country as though that prosperity was the result of their measures They have lauded their tariff as the cause of the increased price of breadstuff, and at every arrival of specie from Europe they have thrown up their caps in exultant jubilees as though proof had been furnished of the correctness of their theories, and against the salutary doctrines of protection to home labor Who wants protection cried they, when the farmer gets high prices, when ship owners obtain high freights, when mechanics find employment?

But the accidental circumstance of short crops in Europe is about bursting, and as the first fruits of a return to the ordinary and natural condition of the crops in Europe, down goes the price of flour in Liverpool to the price in New York city Down goes the credit and value of bills of exchange drawn against flour sent forward and subjected to an immense loss Down goes the high hopes of the shippers of this flour and down goes the price of freights The loco tariff has been in operation only about eight months and its legitimate effect is yet just beginning to be felt and that in the way of immense importations into our country of foreign manufactures—so great indeed is the increase of foreign importations that under the present twenty per cent ad valorem law the duties have reached the amount of any quarter under the tariff of 1842 These goods are now coming into close and gripping competition with our home manufactures and cheaper bread and full working of the mills in Europe will increase this competition immensely Europe is determined to get back by low labor the specie sent here for bread and without adequate protection to our home labor she will do it The goods sent here will be here sold, if not at one price, certainly at another—at all events sold They must be paid for and that pay will return the specie to Europe This is the great commercial and financial struggle which is to be made and he must be blind who cannot see that it will result like that of 1836 and 37 under the operation of the low duties of the compromise act

The government is engaged in making monstrous expenditures in carrying on the war and raising the means on its credit, and appears flush and able and pays well But the money raised on this credit with its interest and its brokerages must all be paid by and by The adjustment of these matters will inevitably introduce disturbances in the monetary affairs of the country, and at length the genuine result of loco foco measures will come upon the country as they came in the disasters which buried Van Buren and his party from their official stations in 1840

Let the Whigs of Maine act vigorously in reference to the legitimate tendency of locofocoism, at the approaching election Let them stand fast by their principles and their measures and their men Let them join the noble company of Whigs in Tennessee and Kentucky and Indiana and North Carolina and Alabama in stripping away the veil of deception which covers locofocoism, and expose to the sun light of common sense its final fruits Let truth and reason and eloquence be brought to the combat against the deceptions and demagogeism of the loco leaders and the loco press, and the right shall yet triumph and victory perch upon the Whig Banners

☞ Mr Hamlin stated in his speech on the departure of the Bangor Antiquarian Society that they sailed under the banner of ZACHARY TAYLOR, who was the only man in the known world entitled to the four Z's He was born with one Z, and he had since been exalted to the sublime degree of the three Z's the highest honors in the gift of this Society and hence the banner

☞ Intelligence from Texas states that a cordon of military posts is about to be established along the whole western frontier of Texas for the double purpose of protecting the Indians from the injustice and imposition of the whites, and for administering prompt chastisement for any acts of aggression of which they may be guilty

It is now believed at Bexar and Austin, that the four surveyors recently captured by the Indians, have been murdered The Camanches, who attribute their capture to another tribe, have so reported

The Texas Regiment, under Col Hays, is still divided between Austin and San Antonio, awaiting orders from Genl Taylor

☞ It is [illegible] that a thorough examination of the whole subject by the engineers of the New York and Erie [illegible] has brought them distinctly to the conclusion, that the present wide track should be continued through the road, and made the fixed law of its construction

Education in Maine.

The first report of the Board of Education of the State of Maine has been generally circulated and we hope may be generally and attentively read by the whole people of the State It is a document full of interest, and contains facts and suggestions which should be generally known and heeded No man can read this report without having the conviction fasten upon his mind, that there is much to do in the way of educating the children of the State, and that every man should endeavor within the sphere of his influence, to improve and elevate the condition of our public schools

We have no time to day to refer to the various matters of interest in the report, and indeed we should prefer that every citizen of the State should read the whole document, for it is highly suggestive, than to rely upon a description of it, but our object now is to notice the fact that one of the Secretary's inferential and startling paragraphs which appears in the report has been called in question, as presenting rather a worse picture than the real facts warrant The paragraph is as follows

"From the whole number of children in Maine, returned to the Board of Education, between the ages of four and twenty one the Secretary of the Board finds that sixty thousand nine hundred and fifty-two did not attend any school during the past summer, and that there were forty seven thousand eight hundred and forty-seven who were not in attendance at any school during the past winter

But the Secretary goes farther and states that these results, startling as they are, show but half the story—that the returns upon which they are based are but from about one half the towns and population of the State The same ratio in the whole State would give, by the same method of calculation, the astounding disclosures that there were during the past summer about one hundred and twenty-two thousand children, and during the past winter, about ninety five thousand who did not darken the door of a school house

This is indeed a startling, and an awful picture, and should urge upon all the necessity of seeking earnestly for a remedy But the picture needs to be softened and qualified in order to reach the real facts in the case, and to represent Maine correctly in her educational interest, and then we shall find enough to deplore and amend The Secretary himself is aware of this and has introduced a qualification by stating that the average age of sixteen is the period of life in Maine, when school education terminates This fact may of itself be one to be deplored but by recognizing it we are enabled to arrive at an approximation to the truth in the premises

An incident within our own observation will serve to illustrate the practical bearing of these calculations While engaged as one of the Superintending School Committee, a few years since, we undertook to ascertain the number of scholars within a certain district Of course, we made inquiries at each house for the number between the ages of 4 and 21 years In one house we found five who were less than 21 years and all five were *married!* It was a boarding house where a number of young married people boarded

But the best that can be done with the facts—subtract as much as we may for their uncertain character, and the possible want of correctness in obtaining the statistics,—are the number of young men at trades, and on the sea, and in various employments, before reaching the age of twenty one years, still there is a large body left of those who have not enjoyed the blessings of a school, which should not be. Maine may not be so deplorably off as the naked calculations referred to represent but she is badly enough so to need our hearty and earnest efforts to get her right and to awaken in all minds a new interest in the subject of popular education

☞ The Bangor Antiquarian Society started on their long contemplated excursion, yesterday morning, in the T F Secor The morning was beautiful, and a large number of spectators were present to witness their departure

The boat was highly decorated with a variety of flags, and by one large Antiquarian banner with this motto—

ANTIQUARIANS
FREE AND
EQUAL.

Upon the left hand is painted a fine figure of a Moose, and beneath it the motto—

Browse or Starve

And upon the right hand is the figure of four Z's, curiously combined, beneath which appeared the mystic word

ZHTOTKEN.

The several officers appeared with various devices among which the Z was everywhere prominent

The drum was beat in ancient style by that famous Antiquarian Musician, Jack Douglass, to whose music the mothers and grandmothers and great grandmothers of all Penobscot born, have tripped in the merry dance

As the boat was about leaving the wharf, E L Hamlin, Esq at the special request of the Grand Sachem, addressed the assembled throng stating the objects of the society in making the excursion, and returning thanks for the sympathy manifested in their behalf by the people of North America This speech was highly applauded, and was responded to by three cheers from both parties, a salute from the North Ender, and a roll by the music

The Society is expected to arrive here on Saturday next, richly laden with the Sockdolagers of antiquarian lore

La Patria, (Spanish paper at New Orleans,) has a letter from Tampico, dated 5th instant, which says that Gen Scott, was to have commenced his march towards the capital on the 5th

Reports say that the Mexican advance had intercepted the correspondence of Gen Scott, (With whom it is not stated)

Santa Anna commenced drawing troops from the capital, which measure had created a great excitement, and made it necessary for that General to issue a manifesto, stating that it was only a ruse, and that it was his intention to surround the forces under Gen Scott

Another arrival from the city states that General Scott will not move upon the capital with his present force, and confirms the report of the interception of the correspondence of General Scott

More Mexican Documents.

New Orleans papers of the 13th inst, have been received The Picayune publishes important Mexican documents Two circulars dated 7 and 17 of July respectively were issued by Pacheco, the new minister of Foreign affairs to the governors of the states These are considered the latest and best exponents of Santa Anna's views and policy— The first abounds with fulsome panegyric of Santa Anna It begins with declaring that his whole life and the glory of his name are indissolubly associated with the war Pacheco denies that Santa Anna has any understandings with the Americans, or any plans or preparations for making peace, he listens only to the dictates of peace, and the wishes of the legislatures and governors of states He was the first who encountered the enemy to share in their honors The second circular intimates that the civilized world is in favor of the Mexican cause and that the opinion is equally general that the United States cannot triumph except by the internal dissensions of the Republic The government of her Britannic Majesty has signified to that of Mexico the most loyal and friendly sympathies, which the republic has ever enjoyed He has not recognized any revolutionary government in Mexico, and only that is legitimately established which has the presidential name, wherever it may be, should the chances of war compel the government to abandon the capital A letter from Lord Palmeston, the British Secretary, accompanies the circular— His lordship assures the Mexican government that the resident minister of Great Britain will consider it his duty to follow the government and maintain relations with it in whatever part of the Mexican territory said government may fix its residence

☞ The Committee of Invitation, representing the Whigs of New York city, which waited upon Henry Clay at Cape May on Friday the 20th, were kindly received by that eminent statesman, but for reasons firmly but feelingly urged, he declines to extend his visit farther North The New York Tribune gives the following report of Mr Clay's brief but touching reply

"Mr Clay rose amid enthusiastic cheers, and said he was tempted, by the eloquent and affecting appeal to which he had just listened, to say with one of old, 'Almost thou persuadest me to be as was desired of me (Renewed and prolonged acclamations) But he begged those who thought he should do so, to consider for a moment the circumstances which had impelled him to seek recreation and health in a visit to the shores of the Atlantic On the 23d of March last he returned to Kentucky from a winter residence in New Orleans and the next day was overwhelmed with tidings of the most desolating affliction wherewith a Merciful Providence had ever visited him

(At this reference to the fall of his daring son at Buena Vista, not Mr Clay alone, but most of his numerous auditors were moved to tears) It had often been his lot to drink the bitter waters of affliction under circumstances like the present —of six as lovely and beloved daughters as ever blessed a father's heart not one has been spared to solace the evening of his life All have been snatched away in childhood or in early womanhood, yet this last blow has stricken me more severely than any other I was rendered by it melancholy, restless, despondent

How could I remain where everything bore the mournful witness to my bereavement? where the trees that shaded me had been planted by my departed son?—where the memorials of his life and his love met me at every step? I turned from my home and its saddening influences to seek afar that solace which was denied me In this spirit I came to the Virginia Springs, and then to this place, but I was utterly unprepared for the reception which awaited me. How could I have imagined that I, an humble private citizen, without office, or patronage, or power of any kind—with not even a constable's staff at my bidding or bestowal—should be met by such overwhelming testimonials of esteem and affection as have everywhere greeted me?

But should I trust myself upon this wave of popular feeling which now solicits me, whither will it bear me? Where shall I stop? Already, beside letters from various cities and towns which I have no time even to answer, there are Committees here on errands like yours from the metropolis of New Jersey, from Philadelphia and other places Should I consent to visit York, how can I say no to Trenton, to New Haven, and many other cities? How could I bear the emotions and fatigues of a journey so exciting, so illimitable? No, my resolution is taken

I must avoid even Philadelphia, and after enjoying for a few days longer, the healthful luxury of bathing by this delightful spot, I shall return swiftly and quietly to my distant home —I trust with a frame invigorated and with the bitterness of grief assuaged by the scenes and incidents of this journey This answer is given not to New York only, but to the citizens of all other parts of our country who by Committee or by letter have solicited my presence To them as to you, also let me give assurances of the deep feeling which these last monuls of their affection have excited, and of the fervent gratitude with which I shall treasure them to the last moment of my life

The Great Question.

The extreme probability that in the next House of Representatives the Whigs will predominate, heightens the responsibility of our position as a party and renders more obvious the necessity of earnest, reasonable, thorough reflection as to our duty with regard to the existing war It is time that the People should speak out on this subject, through their meetings, their conventions, their journals Had there been time for this in May, 1846, no combinations of Executive iniquity, Congressional intrigue and seeming peril to our gallant Army could have wrenched out of a majority of the Whig members a forced concurrence in the audacious falsehood that 'War exists by act of Mexico' True, the whole Nation saw that this concurrence was constrained and unreal—that it was given under a strenuous protest, and after exhausting argument, effort and entreaty in vain attempts to induce a tyrannical and unprincipled majority to allow them to vote men and means for the relief of beleaguered countrymen, without seeming to assent thereby to the monstrous lie prefixed to the supply Bill Every body who can read saw and knew that the Whigs voted to strike out the Preamble—begging the privilege of voting to the supplies without it but all in vain And yet in the face of this universal notoriety, there are creatures in human shape who are base enough to cite the vote of the Whigs for this bill as a deliberate endorsement of the war, and to proclaim—not alone in bar rooms and journals the fitting oracles of the most depraved groggeries—but even in Congress—'The Whigs have admitted that the War exists by act of Mexico, see their vote for the War Supply Bill of May 46!' Surely he, who, finding his neighbor's name carelessly written on a blank sheet of paper, writes a note for a thousand dollars over it, and gets the money therefor does not surpass this trick in dishonesty nor begin to equal it in meanness We defy any body who pretends to be above the temptation of a carelessly exposed pocket book seriously to justify in the face of men of intelligence and lofty integrity, the logic by which the Whigs in Congress are held to have charged the origin of the war with Mexico

But the trap set for the Whigs in 1846 is by no means the sole contrivance of its authors of like character Throughout the Southern and Western States this dilemma is presented to the Whig candidates for Congress 'The country is now involved in War No matter about its origin what do you propose to do?' And this same question will press with redoubled force upon the Whigs in Congress in case of a Whig majority in the House We trust the general answer will be 'We will do *right*, and, to the extent of our power, refrain from doing or sustaining wrong, no matter how specious may be the excuses for, nor how alluring the advantages of, a contrary course' Let this stand be taken and consistently maintained and were it to cost us a Presidential defeat, we should esteem the result more honorable and ultimately more advantageous than ten years of uninterrupted domination

That the misrulers of the Nation will abuse to the utmost the calamities into which they have plunged the country as a means of perpetuating their power, is of course to be expected They will spare no pains to father their own crimes upon the Nation in order that the Nation may empower them to hold on to their offices But will the Whigs vie with them the race they are running? The next session must answer

A Washington correspondent of the Commercial after exposing the device of Polk and Ritchie to make personal and party capital out of their war, thus continues

'The drama is now becoming one of intense interest Whether the Whig party and the Calhoun party in the next Congress, whether the friends of General Taylor, whether the Whig party generally, will accept the issue tendered by the Executive organ, I cannot undertake to predict Will they suffer the administration to run riot with this war for two years more, and plunge the country into debt and danger now scarcely to be conceived of, and merely for the sake of retaining power and spoils themselves? This remains to be seen

We cannot speak for others, but the Whigs generally with whom we are acquainted are devoted to Peace, Justice, and Freedom, they loathe the War, Robbery, and aggressive Slavery They do not see the policy of expending tens of thousands more of lives and countless millions more of money in Mexico, when the most favorable result of so doing will be the acquisition of territory which we do not need, and which is very likely when acquired, to involve us in deadly fraternal discord We shall see whether other Whigs and how many, hold opposite opinions —New York Tribune

Notice to Log-Owners.

THE undersigned Committee of the Penobscot Boom, would say to the Logowners that there is great delay in rafting logs from the Booms, on account of the logs remaining upon the piers after they are rafted out, inso much that the Boom Master has had to stop rafting repeatedly; and unless the log owners shall use more expedition in taking away their logs, we very much doubt if the Boom can be cleared of logs during the proper rafting season.

ADAMS HOUSE,

No. 371 Washington Street,
BOSTON.

L. & W. T. ADAMS beg leave to inform their friends and the public, that they have taken the above new and splendid Hotel.
THE ADAMS HOUSE was erected during the past season to supply an obvious demand for increased and superior accommodations in this City. It is located on Washington street, within five minutes walk of the great Southern and Western Rail-Road Depots, and the business sections of the City. It is adjacent to the Park, and the Cupola commands a beautiful view of the Harbor and the adjoining towns.
The House has been constructed after the most approved plans, with all the modern inventions that minister to the comfort and convenience of the Traveler, and the Constructor's long experience in Hotels has enabled him to introduce many improvements, which are, as yet, peculiar to this Establishment. It is built of Quincy Granite, and contains one hundred and fifty Rooms, conveniently arranged in suits and single apartments, well ventilated, and supplied with an abundance of pure soft water.
The Furniture was made to order from the best patterns, with special regard as well to comfort and convenience, as luxury and splendor.

We have devoted unusual attention to the selection of Servants, and our Guests may rely upon prompt and polite attendance.
Porters will be in readiness at the various Depots to take charge of baggage, and provide Carriages for our Guests.
The Proprietors trust by strict attention to the wants of Guests to merit a share of patronage, assuring all who may favor them with a visit that nothing shall be wanting on their part to render the ADAMS HOUSE second to none in the Union.

MATCHES.

25 GROSS in round boxes, for sale by

Thompson's Compound Syrup of Tar and Wood Naptha.—If a man ails, common sense will suggest that he ought to have recourse to proper medicines for the removal of his ailments. This may be done either by consulting a respectable physician, or by taking a preparation which has been properly tested, and met with the universal approval of the public. This plan, however, is seldom adopted, owing to the specious advertisements of villainous quacks, who unblushingly assert that one particular medicine will cure every disease that flesh is heir to, from the tooth-ache to the gout. These wicked fabrications are read by a majority of the people, who swallow the bait; the result of which is, the public are first plundered, then half if not quite poisoned, and the rogue's fortune if made, "quod erat demonstrandum." How much better it would be, if people would inquire into the merits of a particular medicine before purchasing. It would remove all doubts, and secure the purchaser from imposition. We make the above remarks to introduce to our readers 'Thompson's Compound Syrup of Tar and Wood Naptha,' a preparation of standard merit for the relief of consumption, asthmatic affections, and diseases of the lungs and throat. This medicine we have used with the most triumphant results, and many cases of affections of the lungs have come under our notice, which were speedily cured by a few bottles of Thompson's Compound Syrup of Tar and Wood Naptha. Be particular and get the genuine. It is prepared only by Agney & Dickson, at the N. E. corner of Fifth and Spruce streets.
The above medicine is for sale in this city by Hall & Young, agents, 4 Smith's Block.

Dr. Townsend's
SARSAPARILLA,
The Most Extraordinary Medicine in the World!

This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other medicines, while it eradicates disease it invigorates the body It is one of the very best Spring and Summer medicines ever known, it not only purifies the whole system and strengthens the person, but it creates new pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 6000 of these were considered incurable More than
3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
400 cases of General Debility and Want of Energy
7000 cases of the different Female Complaints
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy
3000 cases of Consumption,
and thousands of cases of diseases of the blood, viz — Ulcers erysipelas, salt rheum, pimples on the face, &c &c together with numerous cases of sick headache, pain in the side and chest spinal affections &c &c

This we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States informing us of extraordinary cures. R. Van Buskirk Esq one of the most respectable druggists in Newark N J, informs us that he can refer to more than 150 cases in that place alone There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventative of disease known It undoubtedly saved the lives of more than

5000 CHILDREN THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season

UNITED STATES OFFICER

Capt G W McLean of the United States Navy and member of the New Jersey Legislature, has kindly sent us the following certificate It tells its own story
Rahway Jan 2, 1847

A year since I was taken with the influenza, and my whole system left in a debilitated state I was induced to try Dr Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved and attribute it entirely to the said Sarsaparilla I have continued taking it, and find that I improve every day I believe that it saved my life, and would not be without it under any consideration G W McLEAN

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend, Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine— They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under deep obligation Yours respectfully,
ISAAC W CRAIN, 106 Wooster st
New York, March 1, 1847

Brooklyn Jan 3 1845
TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life, This period may be delayed for several years by using this medicine Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all of the delicate diseases to which women are subject It braces the whole system renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation —which is the case of most medicine taken for female weakness and disease

GREAT FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhea, or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident

Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness

It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with a healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures and also hearing it recommended for such cases as I have described I obtained a bottle of your Extract of Sarsaparilla and followed the directions you gave me In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public M D MOORE
Albany, Aug 17 1847 Cor Grand and Lydius sts.

OPINIONS OF PHYSICIANS

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market H P PULING, M D
J WILSON, M D, R B BRIGGS, M D,
P F ELMENDORF, M D
Albany, April 1 1845

The following is from one of the most respectable physicians on Long Island,—

Greenport July 10, 1846

Dr Townsend Dear Sir—It is with satisfaction that I say to you, that I have recently witnessed in several cases, the most beneficial results from the use of your Extract of Sarsaparilla Being engaged in the practice of medicine, I have prescribed it in several cases and never without benefit In the removal of diseases arising from a deranged state of the digestive organs and the like it far excels anything of the kind ever before offered to the public You will please send me two dozen &c &c Respectfully yours
S C PRESTON, M D

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system even when the limbs and bones are dreadfully swollen

☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford Conn The following is an extract of a letter received from him

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject from an injury received several years ago in a public stage. Please send me two bottles to the care of Dr[illegible] mour I have conversed with two of our principal physicians and recommended your Sarsaparilla SETH TERRY.
Hartford, March 1, 845

PILES! PILES!! PILES!!!

Dr Townsend's Sarsaparilla is no less successful in curing this distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility Read the following —

Dr Townsend Dear Sir—The effects of your Sarsaparilla are truly wonderful For the last six or eight years past I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint and have despaired of ever finding relief except in death I have the pleasure to inform you there is yet a balm in Gilead." I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint I send you this for publication and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands
Yours truly, JOHN HALL, 49 Fulton st
July 5, 1846.

CAUTION!

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c They generally put it up in the same shape bottles and copy our certificates and advertisements, claiming that theirs is far superior and four times stronger than Dr Townsend's &c, hoping thereby to deceive the public Some use fictitious names a few use their own, some of these unprincipled men publish counterfeit certificates, others have induced their brothers and other interested persons to allow the use of their names, to which they put 'Esquire' to give them respectability The public should be on their guard and look out for counterfeits

"To MR JULES HAUEL

Sir Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be, skilfully prepared and compounded I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste — I am fully satisfied of their intrinsic worth, and do heartily recommend them to all for the use and purpose they are intended Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative It invigorates the hair and promotes its growth The Shaving Cream is unsurpassed and decidedly excellent being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates beautifully open the pores of the skin and cleanses it from all impurities The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay They are in their way invaluable.

"I have seen some of my friends who have used your Vegetable Liquid Hair Dye; its effect is really a wonder. It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful and none will detect the artificial colors, as it is so natural Yours &c DANIEL J DESMOND

THE
GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT" should be made the means of incalculable and enduring blessings to the human family Suppose for example, that a high order of talent long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of similar talents and toil in other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man *Twenty-five years devotion* to any one subject will give a man of ability the mastery over it This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME The mariner's compass, for instance, was not invented until in the "fulness of time" it was needed The *loadstone* always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled Behold it now transferred to the binnacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks!

So with the discovery of the New World, upon whose shores was to arise this Giant Nation to a power, a glory, a mission far beyond the conception of the wildest fancy The Old World had reached its highest destiny the "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus, from the forecastle of his drenched and leaky vessel found it! So with the invention of printing of steam, of the magnetic telegraph Each of these had its own "fulness of time," marked, distinct and Providential

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that *something yet better* to heal human maladies is at hand

That this principle is as true of Medical as of Physical science is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it.— The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills rests his theory upon no school or dogma of ordinary medical teachers Planting himself upon the revelation of the

ALMIGHTY CREATOR,
THAT
"THE BLOOD IS THE LIFE"

he requires that his disciples and his patients *make pure the life current* that leaps through their veins and arteries, before they can hope for a PERMANENT cure Relief he can give them and so can others, but bright and joyous health must come from a pure blood

But a most sad thought here comes in! So countless are the impositions which are practiced upon the public by pretenders, and so numerous and [illegible] are the medicines advertised, that the reader may be slow to believe in this Great Remedy A word therefore on this point

In the first place, READ THE GRAEFENBERG GAZETTE No matter how sceptical you may now be, that paper will convince you Thousands *have been* convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists clergymen physicians civilians The bare enumeration of their names would fill this page Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the end of your days

A thousand things press up in the minds of the advertisers which they would rejoice to say to the reader, but the limits of this advertisement forbid But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED!

Asthma	*Flatulency*
Bilious Complaints,	*Fluor Albus, or Whites,*
Boils	*Febric Fever,*
Bowels deficient action in,	*Green Sickness,*
Breast Pang,	*Gripes,*
Catarrh	*Heartburn,*
Constipation,	*Headache,*
Cough of Pregnancy,	*Hysterics*
Costiveness,	*Incontinence of Urine,*
Diarrhea	*Indigestion*
Difficult Breathing,	*Inflammation of vital parts*
Dyspepsia	*Inflammation of the stomach,*
Dyspeptic Consumption,	*Jaundice*
Digestion imperfect	*Liver complaints,*
Determination of Blood to the head,	*Low spirits*
Ear Ache	*Menstruation Suppressed or painful*
Erysipelas,	*Nervous disorders,*
Epilepsy	*Neuralgia,*
Fever—Low, Nervous Intermittent, Remittent	*Rheumatism,*
Fever and Ague,	*Stomach various diseases,*
	Whites

In all bilious or chronic disorders, these Pills achieve the most wonderful triumph HERE THEY DEFY COMPETITION And as the susceptibility of the American constitution is to these diseases they are aptly styled by some

The Pill of the New World.

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS MAKE THE URINE FLOW HEALTHILY AND CLEAR AND TO GIVE TONE AND STRENGTH TO THE SYSTEM

It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills But REASONS DO EXIST which have abundantly satisfied the minds of thousands in this country, and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, male and female

☞ NUMBER OF CERTIFICATES of the wonderful efficacy of these Pills might be presented but a certificate in these days is scarcely worth the paper on which it is printed A few extracts from the correspondence of the Company, will however, be given

FROM INDIANA

"Your enterprise is the enterprise of the day Its magnitude will astonish its originators It is destined to effect a complete revolution in the medical world"

FROM A JUSTICE OF THE PEACE IN WESTERN N YORK

"I have sold a number of boxes to the citizens of this place They have given entire satisfaction, and they are destined to become the most popular Pill of the day"

FROM TOLEDO OHIO

"Having heard so much, and witnessed two or three cases treated in the mode directed by your Journal, I have thought it important you should have an agent at this place; In my opinion, more good can be done in this bilious climate by your medicines, than by the old modes.

I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success"

FROM A DISTINGUISHED GENTLEMAN OF BOSTON

Gentlemen,

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills, For many years I have suffered much from constipation, which has deranged my whole system, and I have not known a day's good health for many years past, and being an old man I despaired of ever again enjoying life, but a friend recommended me to try your Pills, which I did, although without any confidence the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day"

FROM JUDGE ———, OF GEORGIA.

Sirs,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say that they have been of great service to me and if they continue to give me the relief I have already felt I shall bless the day you sent them I need not allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood where they have performed some extraordinary cures"

FROM AN EPISCOPAL BISHOP

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made, in the production of your Pills I was induced to try them, from the philosophical manner in which you have reasoned on the subject and I must do myself the pleasure, and you the justice to say that I had no conception so speedily an effect could be arrived at My complaint has been that of the Liver, from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession In future I will send to your agent for more Pills when needed With great consideration and gratitude, I am, &c

From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts ONCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS!

DR S. O. RICHARDSON'S
CONCENTRATED
Sherry-Wine Bitters

THE Proprietor of this medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

I cannot be denied by those who have been acquainted with the singular virtues of these Bitters that they possess a pre eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact that most diseases arise from a derangement of the Stomach and bowels in youthful adult and declining life

The extensive sympathies which subsist between there and every other part of the system are the foundation of Nervous Diseases of all kinds, Irregular Appetite Languor Drowsiness Wandering Pains Headache, Lowness of Spirits

And these in their turn give birth to Dyspepsia Palpitation of the Heart Shortness of Breath Jaundice, Piles Fever Inflammatory [illegible] Coughs, and a host of diseases which enslave and poison all sources of enjoyment

The distinguishing character of these Bitters most striking their operation being more or less powerful according to the violence of the disease When used in appropriate quantity in cases of slight derangement of the Stomach and Bowels occasioned by costiveness or a slight bilious derangement and the like where nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily until the circulating fluid becomes purified This accomplished they act on the system in connection with our food each receiving mutual assistance until the constitution is restored to a state of health and renewed [illegible]
